

StrikerX Firmware Update

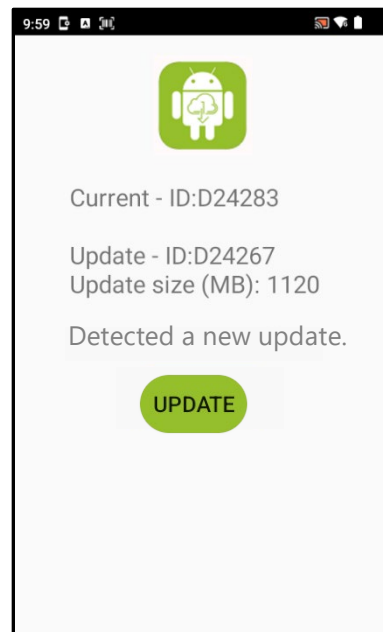

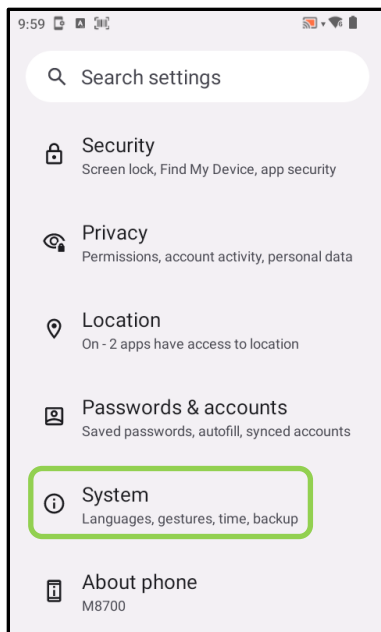

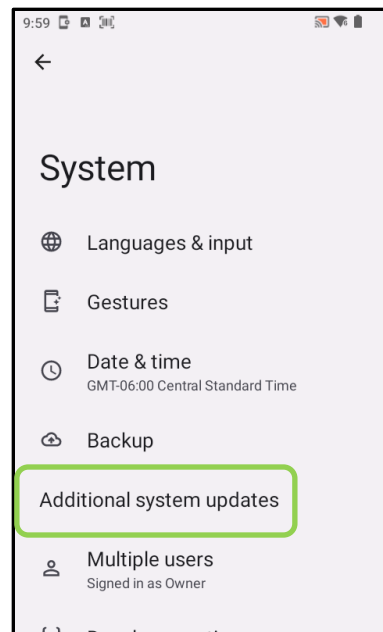

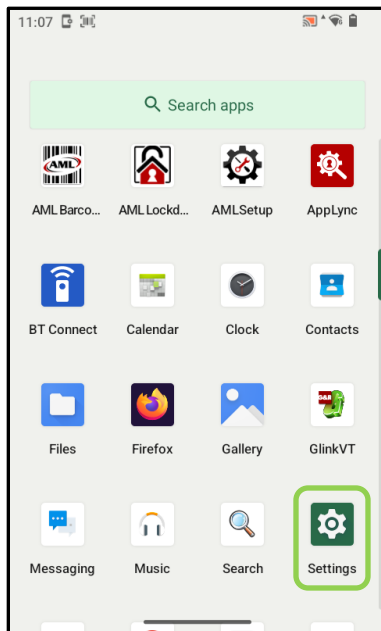

1

Before proceeding with the OTA update, verify that StrikerX:

- is connected to a wireless network with internet access
- has a battery charge greater than 30%

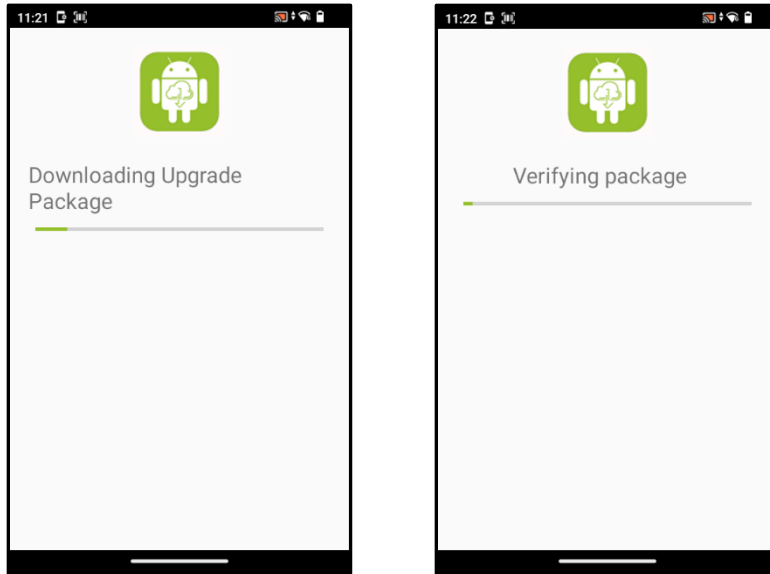

2

Go to: **Settings** → **System** → **Additional system updates** → and tap **Update**:

3

Allow a few minutes while the StrikerX downloads and installs the system update.
The StrikerX will reboot on its own upon successful completion.

4

Go to **Settings** → **System** → **Additional system updates**

Verify Firmware is updated: **Current and Update ID numbers** should match
